[Special to The Times-Nepach.]
LOUISVILLE, KY., June 5.—The
thirty-fifth annual session of the Nobles of the Mystic Shrine, the second
ever held in Dixle Land, will begin
to-morrow in Louisville. The city is
transformed with color and decoration.
Hard and systematic work on the part
of Kossir Tomple, of Louisville, has
had the effect of giving the city an
expression of hospitality that has
never before been excellent in the
preparation for a convention.
For four days Louisville will be
given over to the visitors, who with
their families and friends are expected to number 100,000.

To use an expression germane to
the soil, a huge hand with the word
"Howdy" written across it in electric bulbs, swings at a principal street
incresection. At another there is a

have the various symbols of the

Among the special features of the entertainment which Kosair have rovided its brothers, there is a bird-seve view of Louisville from the top of its tailest building drills and parades galore; an old-time "ante-belium" Southern minstrel show; atuomobile races, bringing together the most daring drivers of the country, on Wednesday; an electric street pageant on Tuesday night, and "An Attack on Fort Boonesboro," the first palisade of the white man west of the Allechantes on

p'clock this evening, taken on water and sailed off south.

Two of the balloons, it was reported from Nashville, Tenn, were sighted about fifty miles south of that city this afternoon. A report that the St. Louis III. had dropped a message aligned "Baldwin and Fisher" evidently was erroneous. Captain T. S.
